

Improvement Plan

Goal 1: Goal should be Specific, Measurable, Achievable, Realistic, and Timely (SMART).

Data source/Assessment strategy that supports this goal: Which Measurement Tool provides data to support this goal?

Training that supports this goal: Which trainings or professional development opportunities will support this goal's success?

Tasks to help program reach goal:

1. Communicate with school staff about goal and necessary data that can support the goal
2. Train staff (and youth) to collaborate on a logic model that outlines the path to achieving the goal.
3. Have program staff (and youth) attend professional development opportunities that support this goal.
4. Create implementation plan to integrate effective strategies into program delivery.
5. Staff (youth, volunteers) schedule observation/reflection opportunities during planning meetings.
