

Sample Teacher Assessment

A community school builds partnerships and organizes resources (programs and services) to support the successful development of students. All young people must develop skills and strengths to navigate normal developmental tasks. Sometimes students face challenges that affect their healthy development. Schools, Communities and Families must work together to address successful development of our youth. Think about our school community and consider the following rating scale:

Needs Assessment Scale (NAS)									
<u>Low Degree of Need</u>			<u>Moderate Degree of Need</u>				<u>High Degree of Need</u>		
Adequate resources exist in this area to meet the needs of our student population			Resources exist in this area, but more are needed to meet the needs of our student population				Resources do not exist in this area and are needed for our student population		
Low			Moderate				High		
1	2	3	4	5	6	7	8	9	10

Use the NAS (Needs Assessment Scale) to rate the current response of our school / community to the developmental needs of students.

Please use reverse side to share additional comments & observations.
